OBJECTIVE

- A Self-taught .NET developer experienced in C# development and database design seeking to leverage my skill set to bring innovation and efficiency to Organization's projects.
- Proficient in various .NET Technologies including ASP.NET, MVC and SQL Server. I am Seeking an opportunity to work as a Full-Stack .NET Web Developer, to utilize my skills and knowledge, as well as contribute my best to the team's growth.

PROFESSIONAL EXPERIENCE

ICL Service Solutions - Chennai - 1 Year

Software Trainee - 2023 – Present

- As a 1-year experienced Full-Stack .NET developer, Our Team have successfully completed 4 projects utilizing ASP.NET, MVC Core and SQL Server. We have also completed 1 Windows Application and provide maintenance also. These projects involved developing robust web applications, implementing efficient data management systems, and ensuring seamless user experiences. My experience includes designing responsive interfaces, optimizing performance. I focused on leveraging ASP.NET and MVC Core to deliver scalable solutions that meet client requirements effectively.

ROLES AND RESPONSIBILITIES

- Designing and developing robust web applications using ASP.NET and MVC Core, ensuring scalability, maintainability, and performance.
- Implementing efficient data management systems with SQL Server, including database design, optimization, and querying.
- Crafting responsive, user-friendly interfaces with HTML, CSS3, and Bootstrap 5, ensuring cross-browser compatibility and accessibility.
- Enhancing user experiences by incorporating JavaScript, jQuery, and AJAX for dynamic and interactive elements, improving responsiveness and usability.

TECHNICAL SKILLS

- Front End - HTML, CSS3, Bootstrap5, JS6
- Backend - C# 11.0
- DataBase - MS SQL Server 2022
- Framework - DOTNET Framework 6.0, 7.0, ASP.net 4.8.1, ASP.net MVC 4.8.1, DOTNET CORE
- Tools - Visual Studio 2022, Visual Studio Code 2022, MS SQL 2022, Git and GitHub

1. ALWIN ELECTRONICS

- **Technologies Used :** ASP.NET MVC Core 6, C#, HTML5, CSS3, Bootstrap 5, JavaScript ES6, MS SQL Server 2022
- Duration : 2 Months
- Successfully developed "Alwin Electronics" using ASP.NET MVC Core 6, employing C# as the primary backend language and MS SQL Server 2022 for database management, ensuring efficient data storage and retrieval. Implemented complex SQL queries to handle product inventory and Employee data.
- Implemented responsive front-end design using HTML, CSS3, Bootstrap 5, and JavaScript ES6 to ensure optimal user experience across devices.

2. JJ BIKE RENTALS

- **Technologies Used :** ASP.NET MVC Core 6, C#, WEB API, SWAGGER UI, HTML5, CSS3, Bootstrap 5, JavaScript ES6, MS SQL Server 2022
- Duration : 3 Months
- Built a robust backend using ASP.NET MVC Core 6 and Web API, leveraging C# for server-side logic. Integrated Swagger UI for interactive API documentation, allowing us to test API endpoints and view API specifications easily. Implemented serialization and deserialization of data between JSON format and C# objects, ensuring smooth data exchange between the frontend and backend systems.
- Implemented stored procedures for complex data operations to improve performance and security. Created views to simplify data retrieval and provide a consolidated view of bike bookings and customer information.

3. SRI SAKTHI HARDWARES

- **Technologies Used :** ASP.NET MVC Web Application (.NET Framework 4.8.1) , C#, HTML5, CSS3, Bootstrap 5, JavaScript ES6, MS SQL Server 2022
- Duration : 2 Months
- The backend of the project is developed using ASP.NET MVC Web Application (.NET Framework 4.8.1) and C#. The project includes a well-structured and organized codebase, making it easy to maintain and extend. The project includes functionalities, such as product catalog, customer management. The application is designed to meet the specific needs of the Client.

4. HEAVEN CAFE

- **Technologies Used :** ASP.NET Web Application (.NET Framework 4.7.2) , C#, HTML5, CSS3, Bootstrap 5, JavaScript ES6, jQuery, MS SQL Server 2022
- Duration : 3 Months
- Customers can browse the menu, select items, specify quantities, and add them to their cart for ordering. They

can leave feedback and reviews about their dining experience at HEAVEN CAFE.can reserve tables for a specific date and time. These features provide a seamless and engaging user experience, allowing customers to easily interact with the HEAVEN CAFE's online presence.

- AJAX calls are used to dynamically update the user interface without requiring a full page refresh, improving the user experience and responsiveness of the application.

5. SHREE ANNAI HOTEL

- **Technologies Used** : Windows Application (.NET framework 4.8.1), MS SQL Server 2022
- The product maintenance page enables hotel staff to manage the hotel's inventory, including food items, beverages, and other products.also it allows admin to manage employee details.The billing page provides a user-friendly interface for hotel staff to calculate and generate bills and enabling hotel staff to provide customers with a physical copy of their bill.
- The project leverages database concepts such as joins, normalization, and views to ensure efficient data management and retrieval. By utilizing joins, the application can combine data from multiple tables to provide comprehensive insights.

CERTIFICATIONS

- C#, .NET
- ASP .NET MVC
- MS SQL Server
- Javascript
- HTML
- CSS

EDUCATION

- Completed M.Sc at Bharathiar University of Arts and Science College, Erode.

SOFT SKILLS

- Adaptability
- Time Management
- Communication
