

AZEES RAHUMAN. M

Email: ajirahman2000@gmail.com

Phone: +91-7305119727

I am highly motivated software developer with a passion for learning and growth in a fast-paced, team-oriented environment. Eager to contribute my skills and knowledge to a collaborative team and help achieve its goals.

Analytical Software Developer with strong proficiency in .NET technologies and 2+ years of hands-on experience.

Strong foundation in .NET: Hands-on experience with .NET frameworks (4.0/4.5), ASP.NET C#, MVC, and Entity Framework. Proficient in development environments like Visual Studio (2010, 2015, 2017).

Full-stack development expertise: Skilled in building and maintaining web applications using HTML, CSS, JavaScript (including jQuery), C#, ASP.NET MVC, Entity Framework, and SQL Server. Experience with data visualization tools like Crystal Reports.

Experience across the development lifecycle: Proven ability in developing new web applications, supporting existing applications, and troubleshooting technical issues.

Solid technical skills: Possess strong coding and debugging skills. Experienced in writing SQL functions, views, triggers, and stored procedures.

Effective communicator: Excellent interpersonal and communication skills with a knack for learning new technologies quickly.

Skill Set

Languages	C#, JavaScript, jQuery, SQL
Framework	SQL 2017/2019, Dot Net(4.0/4.5)

Professional Experience

Logicfield Technology Solutions Private Ltd, Chennai

Jan 2022 – Present

Designation: **Software Developer**

Roles & Responsibilities:

- Developed and implemented user interfaces (UI) and back-end functionalities for web applications.
- Performed local testing to ensure application quality.
- Designed and maintained SQL tables for efficient data storage and retrieval.
- Contributed to database optimization by creating and modifying functions, triggers and stored procedures.
- Generated reports to support data analysis and visualization.

PROJECTS

Kaizan:

Client : Madras School of Economics.

Environment: MVC, Entity framework, jQuery, C#, SQL SERVER 2017.

Kaizan empowers the Madras School of Economics community! This web portal centralizes administrative functions for students, faculty, and staff. Users can manage college & hostel admissions, access exam results and certificates, and even handle hostel room allocation – all through the convenient Kaizan interface.

Roles & Responsibilities:

Full-Stack Development (New Implementations):

- Designed and developed user interfaces (UI) for web applications.
- Implemented business logic to drive core functionalities.
- Created and maintained SQL tables for efficient data storage.
- Participated in creating and modifying stored procedures to enhance database performance and security.

Enterprise Resource Planning (ERP):

Client : Cethar Foods Private Limited

Environment: ASP.Net 4.0 &4.5 with C#, JScript and SQL SERVER 2019

Implemented an ERP system at Cethar Foods Private Limited, centralizing business data and automating tasks for improved operational efficiency. Its acts as a central hub for all their business data, from finance and accounting to inventory. This eliminates data silos and ensures everyone in the organization has access to the same information. The portal automates many manual tasks across different departments, such as order processing, production and invoice creation. It manages accounts payable and receivable, general ledger, and financial reporting. In addition, the portal tracks inventory levels, manages orders from suppliers and optimizes logistics.

Roles & Responsibilities:

Maintenance and New Implementations:

- Implemented new features and functionalities for web applications, improving overall functionality and user experience.
- Proactively identified and resolved bugs to ensure application stability and performance.
- Generated reports for data analysis and visualization, enabling data-driven decision-making.
- Maintained existing application codebase, ensuring smooth operation and fixing issues when needed.
